Prominent Intellectual Property Law Firm Opens Silicon Valley Office

*Southern California-based Fish & Tsang LLP expands footprint,
adds new staff, location to serve growing client roster*

IRVINE, Calif., Jan. 12, 2015 – Irvine-based intellectual property law firm [Fish & Tsang LLP \(F&T\)](#) today announced its expansion into Northern California with the opening of a Redwood City office. The new location features three highly experienced IP attorneys, plus paralegal support and administrative staff to boost the firm’s litigation practice. The addition marks F&T’s second California location and will provide increased accessibility for its roster of domestic and international clients.

“When I founded the firm in 2007, our primary goal was to provide clients with comprehensive IP solutions to help them achieve their dreams,” said Founding Partner Robert Fish. “To see Fish & Tsang grow from nine IP professionals to more than 30 attorneys, paralegals and staff – and now two California offices – is beyond anything I ever imagined for our firm.”

Conveniently located in Silicon Valley – a hotbed of IP activity for biotech, technology and medical inventors – the new office will reinforce the firm’s commitment to providing the strategic solutions clients have come to expect from the acclaimed IP firm. Managing F&T’s Silicon Valley office, which will focus primarily on patent, trademark, copyright, trade secret and other types of intellectual property litigation, is F&T Partner [John van Loben Sels](#). He brings nearly 20 years of litigation experience to F&T’s Bay Area location and will oversee the firm’s litigation practice – maintaining F&T’s reputation for excellence and track record of favorable results for clients.

“Fish & Tsang has built a global reputation for its innovative solutions and ability to secure positive outcomes for inventors across a wide breadth of industries,” said van Loben Sels. “It is fulfilling to be part of a team built upon an environment of encouragement, collaboration and trust, and I look forward to helping to cement F&T’s presence in the Bay Area.”

Since the firm’s inception, F&T has experienced a nearly 110 percent growth in personnel, coupled with significant revenue growth, averaging nearly 20 percent annually. More recently, from 2012 to 2014, the firm experienced a nearly 70 percent revenue jump. Last year, F&T also welcomed Partner Mei Tsang to its company marquee and the firm was recognized by *Daily*

Journal as a Top Boutique Firm. It was similarly cited as a Best Place to Work and Fastest-Growing Private Company by *Orange County Business Journal*. F&T's expansion into Northern California tracks a long-term organizational vision and provides clients with additional resources to advance their inventions. In March, F&T will host a special open house to celebrate its new location and welcome clients, colleagues, community members, local dignitaries and staff.

About Fish & Tsang LLP

Fish & Tsang LLP is a premier California intellectual property (IP) law firm providing strategic services of only the highest caliber to help make clients' dreams come true. In early 2014, Fish & Associates, PC, originally founded by respected IP attorney Robert (Bob) Fish in 2007, became Fish & Tsang LLP when it added partner Mei Tsang to its official name. The new Fish & Tsang follows the same "Making Dreams Come True" mantra, which has been the firm's hallmark for two decades, with an unchanged focus and the same commitment level it has always maintained.

Employing a holistic approach to client service, Fish & Tsang champions a three-pronged strategy – identifying, procuring, and shepherding – to provide education and complete legal and business counsel that helps clients realize their dreams. The firm represents small investors, startups and multibillion-dollar Fortune 500 companies, and handles all legal and litigation needs related to patents, trademarks, copyrights, trade secrets and licensing.
